## PROJECTS

### Amazon Clone E-Commerce Application [Github-Link](#)

Sep 2025

**Tech:** React.js, Spring Boot, Spring Security, JWT, JUnit, MySQL, Swagger

- Added secure login and role-based access using Spring Security and JWT to protect user accounts.
- Built product listing, cart, and order flow modules to support a smooth shopping process.
- Used MySQL to store user and product data, and wrote JUnit tests to check backend functions.
- Created and documented REST APIs using Swagger to make API use and testing easier.

### Job Portal Application

[Github-Link](#)

Sep 2025

**Tech:** Spring MVC, Spring Security, MongoDB, JUnit, Swagger

- Set up user login, access control, and role groups for job seekers and employers using Spring Security.
- Built modules for employers to add, edit, and manage job posts with clear input rules.
- Developed job search filters for skills, keywords, and location to help users find relevant jobs.
- Used MongoDB for flexible data storage and added JUnit tests to keep the backend stable.

---

## EDUCATION

### B.E. in Civil Engineering

Graduated: May 2019

Sri Lakshmi Ammal Engineering College (affiliated to **Anna University**), Chennai.

---

## CERTIFICATIONS

Java Full Stack Developer | [Link](#)

GUVI, Chennai | August 2025

---

## SOFT SKILLS

- Problem Solving • Team Collaboration • Communication • Adaptability • Continuous Learning
- Logical Thinking • Attention to Detail
